# Cleaning Guide

House cleaning · how it works, step by step

**The main rule:** Clean first, then take the photos. The photos in the app show Casa Castel that everything is clean.

## WHERE YOU CLEAN

Staircase · All hallways · Bathroom 2 · 2nd floor · Bathroom 1 · 1st floor · Guest toilet · ground floor · Kitchen · basement

## 4 STEPS · ALWAYS IN THIS ORDER

1

### Vacuum

Vacuum the whole staircase, all hallways, both bathrooms, the guest toilet and the kitchen. Corners, edges and under furniture too.

2

### Mop

Then mop everywhere, in the same rooms. The stairs from top to bottom. Let the floors dry.

3

### Clean

Wipe away dust and stains everywhere: shelves, window sills, railings, doors, door handles and light switches.

4

### Photo points

Now clean the points on page 2 thoroughly (bathrooms, guest toilet, kitchen) and take a photo of each one. The app shows you the order.

# Your photo points

Clean first, then take the photo. The number is the order in the app.

3. **Toilet** · Inside and out, seat, rim and base.

## BATHROOM 1 · 1ST FLOOR
